

## **CONCEALED CARRY COURSES, LLC**

**DON'T BE A VICTIM!  
BE SAFE AND STAY ALIVE!**

**PROFESSIONAL FIREARMS TRAINING  
BY U.S. MARINES!**

We have both an 8 hour and a 10 hour CCW class available. The 8-hour class covers only the basics of what the State requires you to know to get your CCW license and nothing more. It is **NOT RECCOMENDED for novices (and we tell you that)!** **The 10 hour CCW class covers MUCH MORE for the same price.** You only have to take this class once in your whole life, **isn't it worth doing it right the FIRST TIME** so that you don't get into serious legal troubles? **BE VERY VERY LEARY of ANY trainers** that say the 8-hour class is ok over a longer one. They get to do a **minimum** amount of work with you to get paid, while **WE WANT** to do the **MAXIUM** amount of work with you and the price is the same for us in either the 8 or 10-hour class. That alone should tell you about US! We have a **NO PUPPY MILL TRAINING PLEDGE** in our company. **Your LIFE is too Important to us!** That's why we have an **ALL U.S. MARINE CORPS TEAM** of Top Notch Professional N.R.A. certified firearms instructors working with you and why we **ONLY DO 1 ON 1 INSTRUCTON WHILE ON THE FIRING LINE!** We have been doing business this way since 2004 and have NEVER trained people any other way.

Our instructors have backgrounds as Combat infantry leaders in the U.S. Marines, Military Police instructors, Primary Marksmanship instructors, Anti-Terrorist team leaders and MUCH MORE! Chief instructor Kim Rodecker was also the head of security at a major office complex where he worked for 22 years, and was in the National Matches multiple times as both a competitor and an instructor. Some of our instructors have been in more deadly encounters in 1 week of their year long tours of duty than most cops get into in a lifelong career. Some are also cops now. Some even teach firearms instruction for the state at a well-known college.

We also **NEVER PUT YOU ON AN INDOOR RANGE!** There is as of yet the **unknown danger** of **Contaminated LEAD SMOKE** at SOME indoor ranges (there are some ranges that have been shut down because of this). Watch out for OLD RANGES and BASEMENT ranges that are INDOORS. **We don't want that for OUR students and REFUSE to even risk it!** The NOISE at an INDOOR range is also **WAY** worse than at an OUTDOOR range. If you're a novice this is VERY DETRAMENTAL to you having a good learning experience at the range. If other instructors or companies teach on an INDOOR range, BE SURE that the range is EPA certified to be safe from lead smoke contamination NOT GRANDFATHERED IN BECAUSE THEY WERE THERE MANY YEARS AGO BEFORE THE NEW EPA RULES FOR LEAD SMOKE CONTAMINATION ! If doing all that checking is too much trouble, then just be sure the company uses an **OUTDOOR** range. Like we ALWAYS have done and ALWAYS will do!

The **MOST IMPORTANT THING IS GURENTEED 1 ON 1 FOR ALL STUDENTS!** We refuse to use catchy words like>>> OH' if we see you need help we'll have someone help you **-or-** Oh -we have an excellent ratio of instructor to student. These statements should be **RED FLAGS** to you. **THINK ON THIS!** Can any instructor no matter how good his knowledge, be watching and training 2 students equally? If he is helping 1 student what is that other student doing? The instructor cannot keep the student (the one he's NOT watching) from making a **SERIOUS** and **potentially deadly mistake if he is concentrating on someone else?** That other student could be just careless or to nervous? Now he has a gun in his hands and he's next to YOU with no instructor right on him, WE don't take these risks with your safety, PERIOD!

Do you personally know that student next to you? Does the instructor? **THINK ON THIS !**

**1 ON 1 ONLY**, that's how WE run our firing line. Your SAFETY is IMPORTANT enough for US to ALWAYS warrant a PERSONAL instructor for **ALL** our students while on that firing line and he is ALWAYS next to you NEVER 5 feet or God forbid further behind you!

**WE TRAIN YOU THE BEST WAY POSSIBLE! OUTDOORS! AND WITH YOUR OWN PERSONAL INSTRUCTOR.** Anything less in our opinion is not as safe as it could be and we refuse to take that risk with our student's lives!

**Beginners are as welcome as the lifelong shooters** because all training is tailored to the student. Even the novice will learn some basic combative style shooting and the more experienced shooter will learn much more because of the training being tailored to each individual student. We train YEAR ROUND on our outdoor range. Bad guys don't only attack on nice days, be leary of any instructors who talk about keeping you all comfy on an INDOOR RANGE. A deadly encounter can happen ANYWHERE at ANY TIME of the year. That's what WE prepare you for.

We do **ALL kinds of Firearms Training, Basic and Advanced, Rifle, Shotgun, and Handgun.** We also do kids basic gun safety classes and private classes of ANY kind at any time you want them? Even TRAVELING classes are available at a special price. Private classes do cost more though (call for private class prices). We also offer Gun Cleaning and Appraisals at a very low cost whenever you want.

**PRICES ARE AS FOLLOWS** – Either an 8 hour or a 10 hour class is \$120. For 1 person taking the class alone, 2 to 4 people taking a class together is \$100 each. So if you have a buddy its cheaper. **These prices are with the CASH discount figured in.** Credit cards are slightly higher. Basically you receive a \$5 Discount when paying in cash. **These prices INCLUDE > Free use of a gun AND its ammo (22cal), Free target, Hearing and Eye protection, AND THE SALES TAX! All that and a Personal instructor on the firing line to!**

The only thing you ever pay extra for is a \$10 range fee on the day of the range. Vets and NRA members also receive a special discount. Generally, Vets get \$10 off and NRA members get \$5 off our already low prices for all we do. You cannot combine those discounts though.

**GIFT CERTIFICATES** are also available year round and they are good for a whole year!
